AGENCY: National Park Service, Interior.

SUMMARY: The United States Department of the Interior, Bureau of Indian Affairs, and Arizona State Museum, University of Arizona, have corrected an inventory of human remains and associated funerary objects, published in a Notice of Inventory Completion in the Federal Register on February 27, 2012. If no additional requestors come forward, transfer of control of the human remains and associated funerary objects to the lineal descendants, Indian tribes, or Native Hawaiian organizations stated in this notice may proceed.

DATES: Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in

support of the request to the Bureau of Indian Affairs at the address in this notice by [INSERT DATE 30 DAYS AFTER PUBLICATION IN THE **FEDERAL REGISTER**].

ADDRESSES: Anna Pardo, NAGPRA Coordinator, Bureau of Indian Affairs, 12220 Sunrise Valley Drive, Room 6084, Reston, VA 20191, telephone (703) 390- 6343.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the correction of an inventory of human remains and associated funerary objects under the control of the U.S. Department of the Interior, Bureau of Indian Affairs, Washington, DC, and in the physical custody of the Arizona State Museum, University of Arizona, Tucson, AZ (ASM). The human remains and associated funerary objects were removed from a location within the boundaries of the Fort Apache Indian Reservation, Navajo County, AZ.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations in this notice.

This notice corrects the minimum number of individuals and number of associated funerary objects published in a Notice of Inventory Completion in the Federal Register (77 FR 11578-11580, February 27, 2012). Re-inventory of the human remains resulted in a reduction in the minimum number of individuals represented because many fragmentary elements could be reassociated with individuals from the more intact burials. The number of associated funerary objects increased due a search through uncatalogued object collections.
